FIRE & SECURITY

Using technology to safeguard you and your property

Putting your safety first

Your family and your home are the most important things in your life - keeping them safe and secure is vitally important to you. You need to be sure that your fire and security systems are the best available, installed and maintained by a totally trustworthy and professional company.

Since we began in 1993, Chris Lewis Fire & Security has built a reputation for professional design, installation and maintenance using the best quality equipment available.

We are known for our quick response times, the technical expertise of all our staff - and for our fantastic customer service.

Our friendly 'can-do, do it now' attitude helped us become a multiple award-winning company, including 'UK Best Security Installer'. All work carried out for you will be clean and tidy, with outstanding workmanship.

Whoever you meet at Chris Lewis, you can be sure that they will be highly skilled, experienced, have great initiative and a genuine desire to help

Giving you peace of mind

Burglar alarm systems

Our trained engineers, working together with our skilled design team, will install and maintain all types of alarm systems in your home.

Did you know that 84% of burglars avoid properties with alarms and that many insurance companies insist on it or offer a discount if you have one?

We can also install panic button and nurse-call systems for elderly or vulnerable people living alone. Additionally, to be on the safe side, all of our systems can be remotely monitored for around-the-clock protection of your home.

Whatever your budget and the size of your property, you can be sure that our advice, installation and after-sales service are the best in the industry.

Safe in the knowledge that we

The latest in CCTV

CCTV technology is constantly evolving. Whether you are installing a new system, upgrading an existing one, or you need to know the difference between analogue or digital cameras, we can help. Our engineers are trained to advise you on the most robust and cost-effective methods of observing your property.

Now, with HD CCTV systems, you can manage your security from anywhere in the world, using your smartphone, iPad or computer.

To ensure maximum effectiveness, home CCTV needs to be expertly designed and installed.

Outside security

We understand that your home is your castle, and you want your gates to look special.

We can help turn your dream designs into reality. Our expert staff help you every step of the way, from designing and hand-picking the most suitable products, to installation and maintenance.

Our expert engineers will carry out a free, comprehensive survey, and will then advise you on a design which operates safely and enhances your home.

are taking care of you

Fire and Safety Systems

At Chris Lewis, we will give free advice on your fire and safety systems, offering you the most up to date and reliable protection for your home.

To ensure your safety, we will supply you with fire extinguishers, fire safes for valuables, sprinkler systems and a full range of carbon monoxide, flood, heat and smoke alarms.

Whatever your needs, our fully trained engineers will design, install and maintain your home safety systems to give you peace of mind that your property and family are safe.

Protected, always

At Chris Lewis Fire & Security, we pride ourselves on delivering a service that will exceed your expectations. We make sure that we contact you when maintenance checks are due and always carry out our visits promptly and efficiently.

Our maintenance contracts ensure:

- Longer life for your equipment
- Confidence in your system
- The validity of some house insurance policies

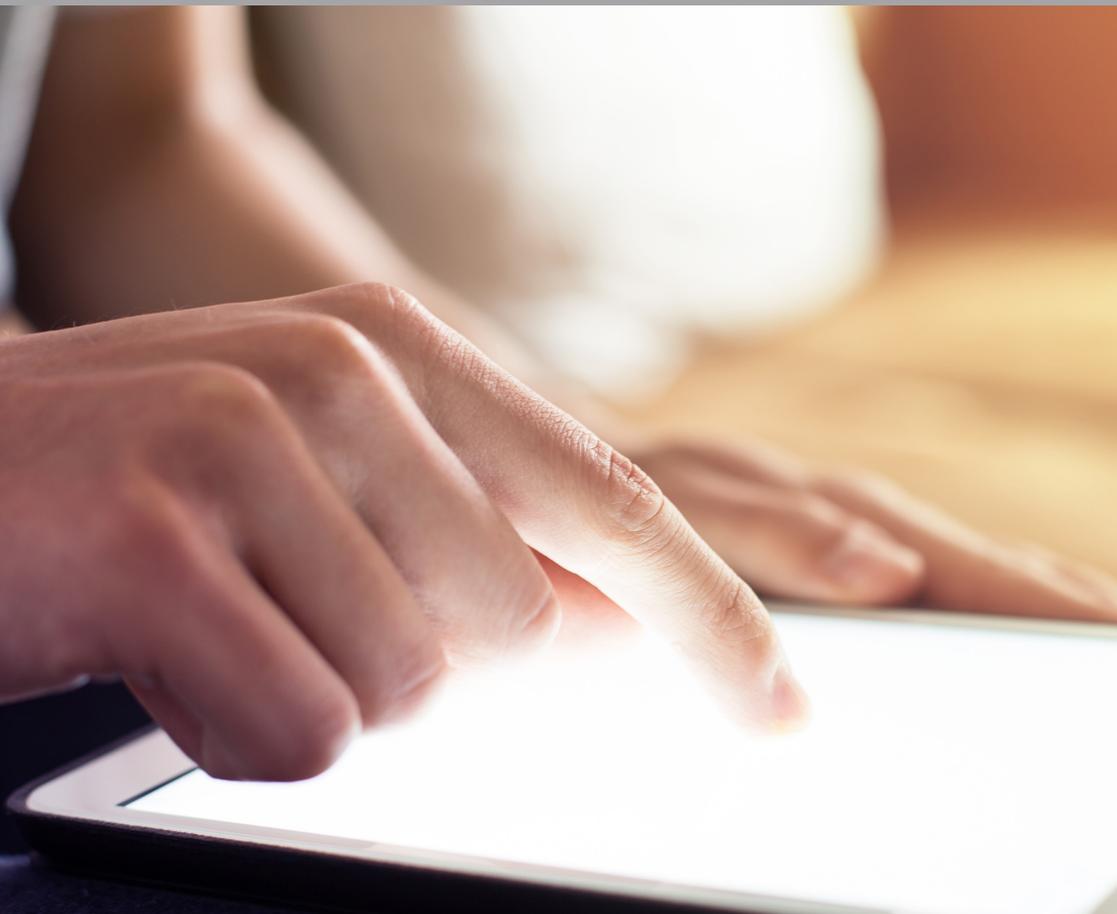

Your peace of mind is guaranteed through:

- Our customer service is always here for you 24/7, 365 days a year
- Your systems work when you need them – always

Our maintenance packages are tailor-made to suit your home and your budget, whether or not you ordered your equipment from us.

Ensure your family is protected by having your fire and security systems regularly maintained by our experts

Wherever you are

Your home at your fingertips

The state-of-the-art home automation devices we supply will quite simply transform your life. By seamlessly integrating the most sophisticated technology into one easy-to-use control panel, we make your home 'smarter' and more energy-efficient.

Total control of your:

- Fire and security
- Audio visual equipment

- Home cinema
- Lighting
- Heating and temperature controls

We will give you total control of all your home systems, from the touch of a button: be it control panel, iPad, smartphone or other device. You can choose from all leading intelligent building systems and be sure of the best possible service, from concept and design, to installation and maintenance.

Maintenance services

Regular maintenance of your fire or security system is essential to ensure that all your equipment is working properly and potential issues are pre-empted.

At Chris Lewis Fire & Security, we pride ourselves on providing a level of service and value that will always exceed your expectations.

You will find that our maintenance packages are flexible and designed to suit your budget. And you don't have to worry if we didn't install the equipment on your site, we're happy to take over maintenance contracts for any existing fire or security system you may have.

Because we understand how valuable your time is, our expert engineers will ensure maintenance visits run as efficiently as possible.

Our dedicated Operations Team will liaise directly with you to arrange a convenient time for an engineer to visit.

Our engineers are in direct and constant communication with our office, and we will present you with an electronic report of work carried out for you, within minutes of the engineer's visit.

Our commitment to you

You will find that our friendly, efficient service and response times compliment our ability to design and install outstanding smart home solutions.

We have invested heavily in advanced communication tools and technology to ensure you receive the most reliable, efficient and professional service in the industry. Our dedication to customer satisfaction and innovative design solutions has led to many industry awards, notably at the Security Excellence Awards where we have won in the Best Security Installer and IT initiative categories.
